The ART & SILK
DESIGN-ATELIER
offers unique pieces of art in its
project entitled,
"The Carpet as a Painting".
These exclusive,
hand-crafted silk
carpet-paintings are
custom-made from the finest
Rajasthan silk by
Indian masters.

Our atelier has developed a new approach to the use of silk to create objects, which perfectly match the interior and have an artistic value of their own. The material that we use is authentic polychrome Rajasthan silk, specially manufactured and carefully selected by our experts. Each strand of silk has its own unique set of hues.

The predominant color of the yarn may contain inclusions of other colors, which makes the fabric shimmering, vibratory, and picturesque. To create interior objects, we use the traditional technology of knotted pile weaving.

However, the secret lies in the special spatial organization of knots, created by a weaver on the instructions of the designer. Designs are developed in our studio exclusively, and handed over to specially trained weavers at a factory in India for completion.

CREATION

ART & SILK
DESIGN - ATELIER

Rajasthan silk is unique in the world of weaving. No other special silk or regular silk, no matter how skillfully it is dyed, can compete with the shimmering multicolor of Rajasthan silk.

The silk threads contain the shimmering fickleness of color, which transforms into a magical vivid surface when placed on the canvas of a carpet painting.

WEAVING

CARPET AS A PAINTING

ART & SILK
DESIGN-ATELIER
takes pride in unique interior
artwork, which we call
"Carpet as a Painting".

To create such a piece, we use
themes from paintings by
modern artists, who are part of
our team, or from well-known
paintings (their fragment) or
classic motifs.

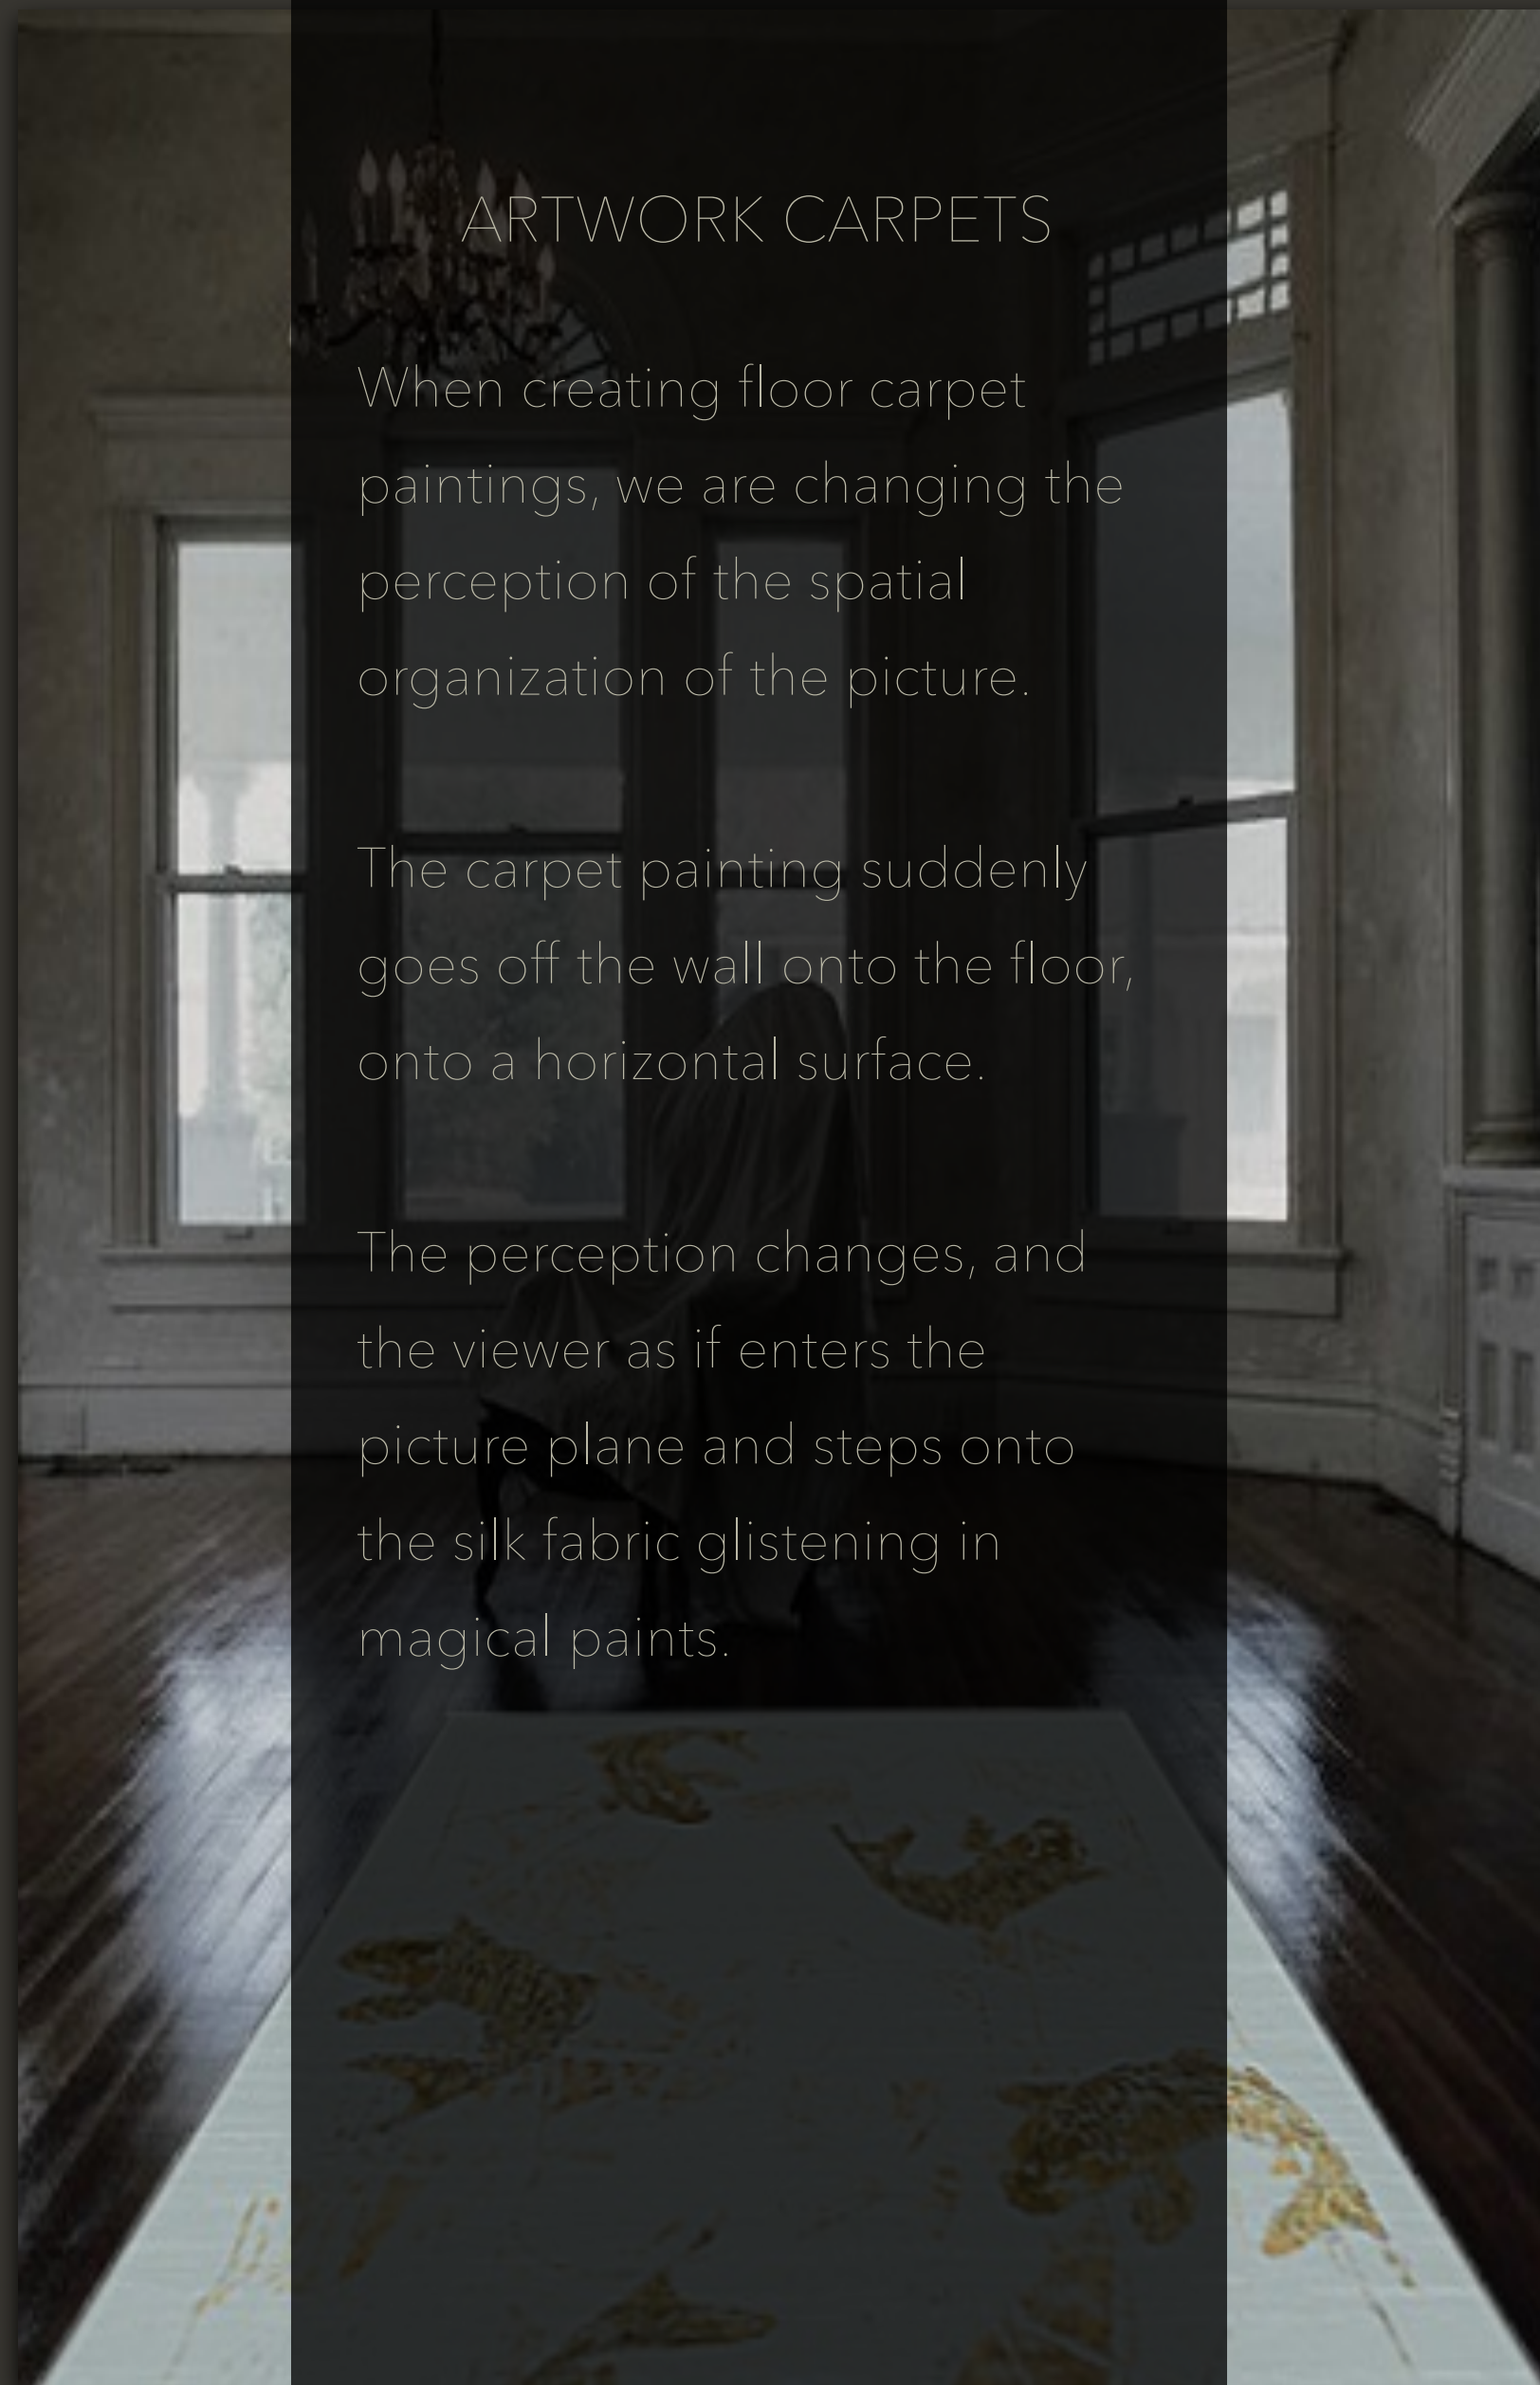

ARTWORK CARPETS

When creating floor carpet
paintings, we are changing the
perception of the spatial
organization of the picture.

The carpet painting suddenly
goes off the wall onto the floor,
onto a horizontal surface.

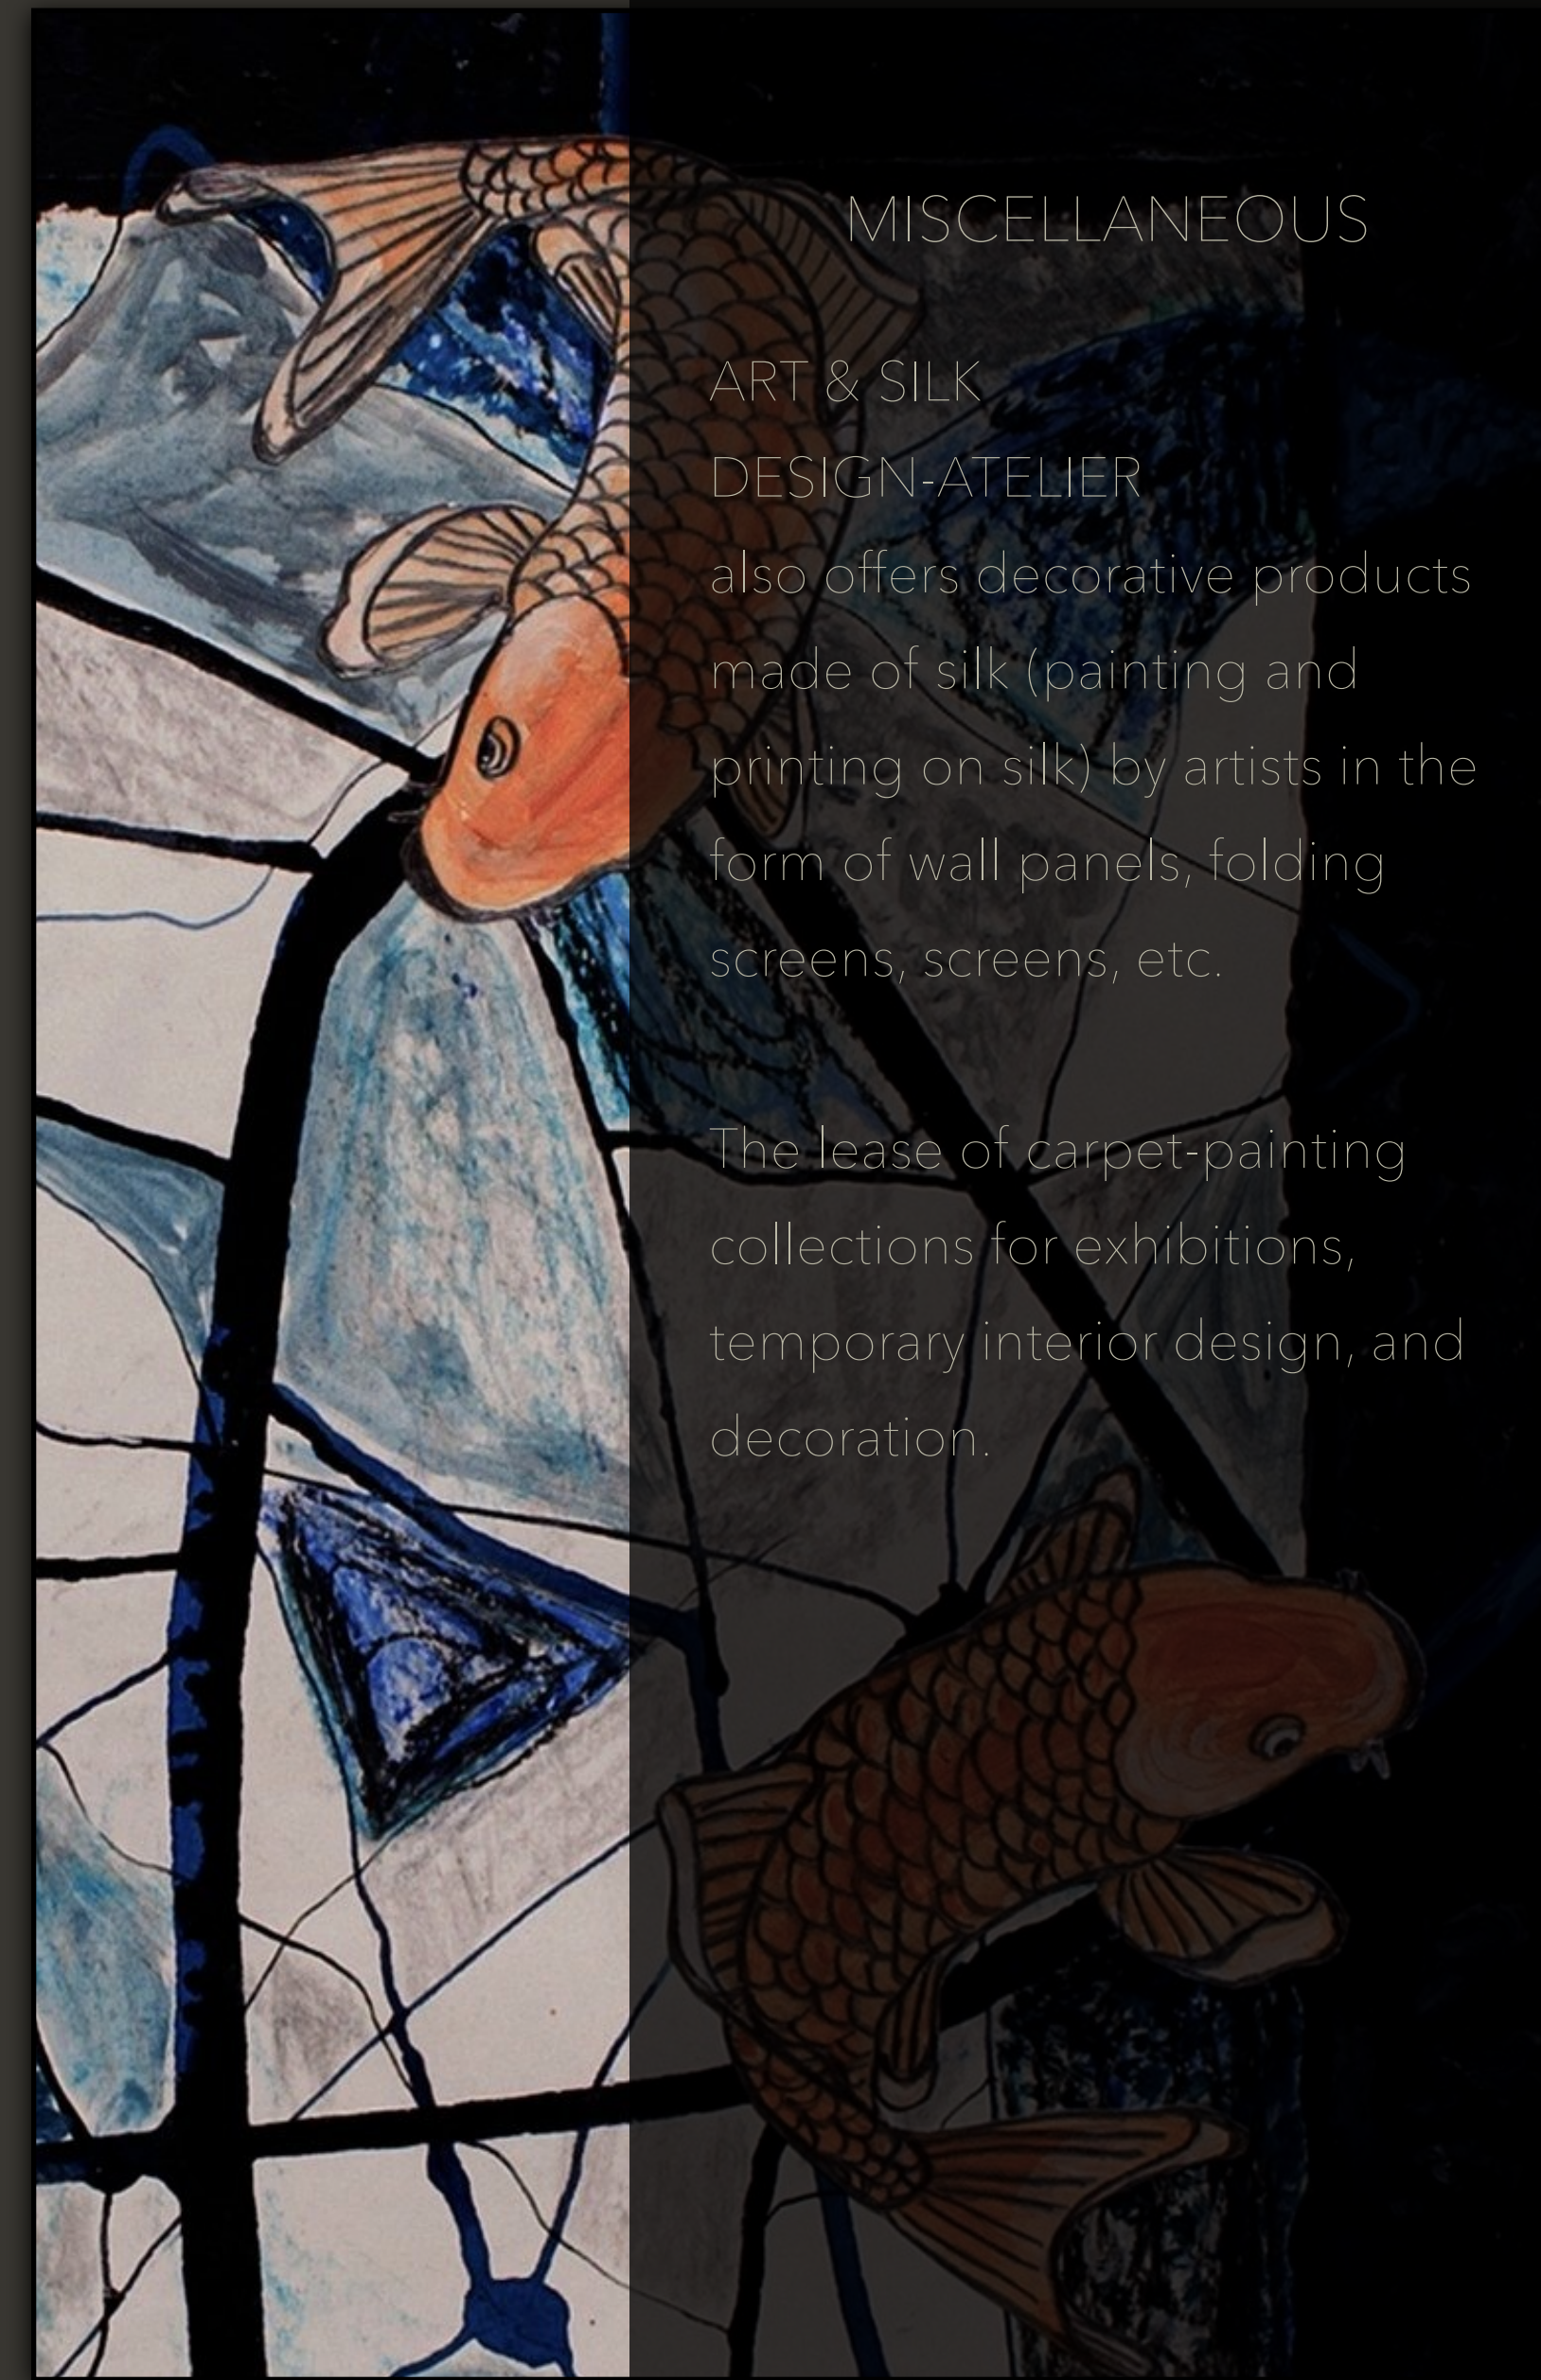

The perception changes, and
the viewer as if enters the
picture plane and steps onto
the silk fabric glistening in
magical paints.

MISCELLANEOUS

ART & SILK
DESIGN-ATELIER
also offers decorative products
made of silk (painting and
printing on silk) by artists in the
form of wall panels, folding
screens, screens, etc.

The lease of carpet-painting
collections for exhibitions,
temporary interior design, and
decoration.

CARPET AS A PAINTING

Rajasthan silk threads contain a unique polychrome dye, where the colors merge with each other, forming an unrivalled luminous playfulness.

Carpet-paintings consist of hundreds of thousands of silk thread knots.

The mastery of a designer is to piece the knots together into a complete color surface.

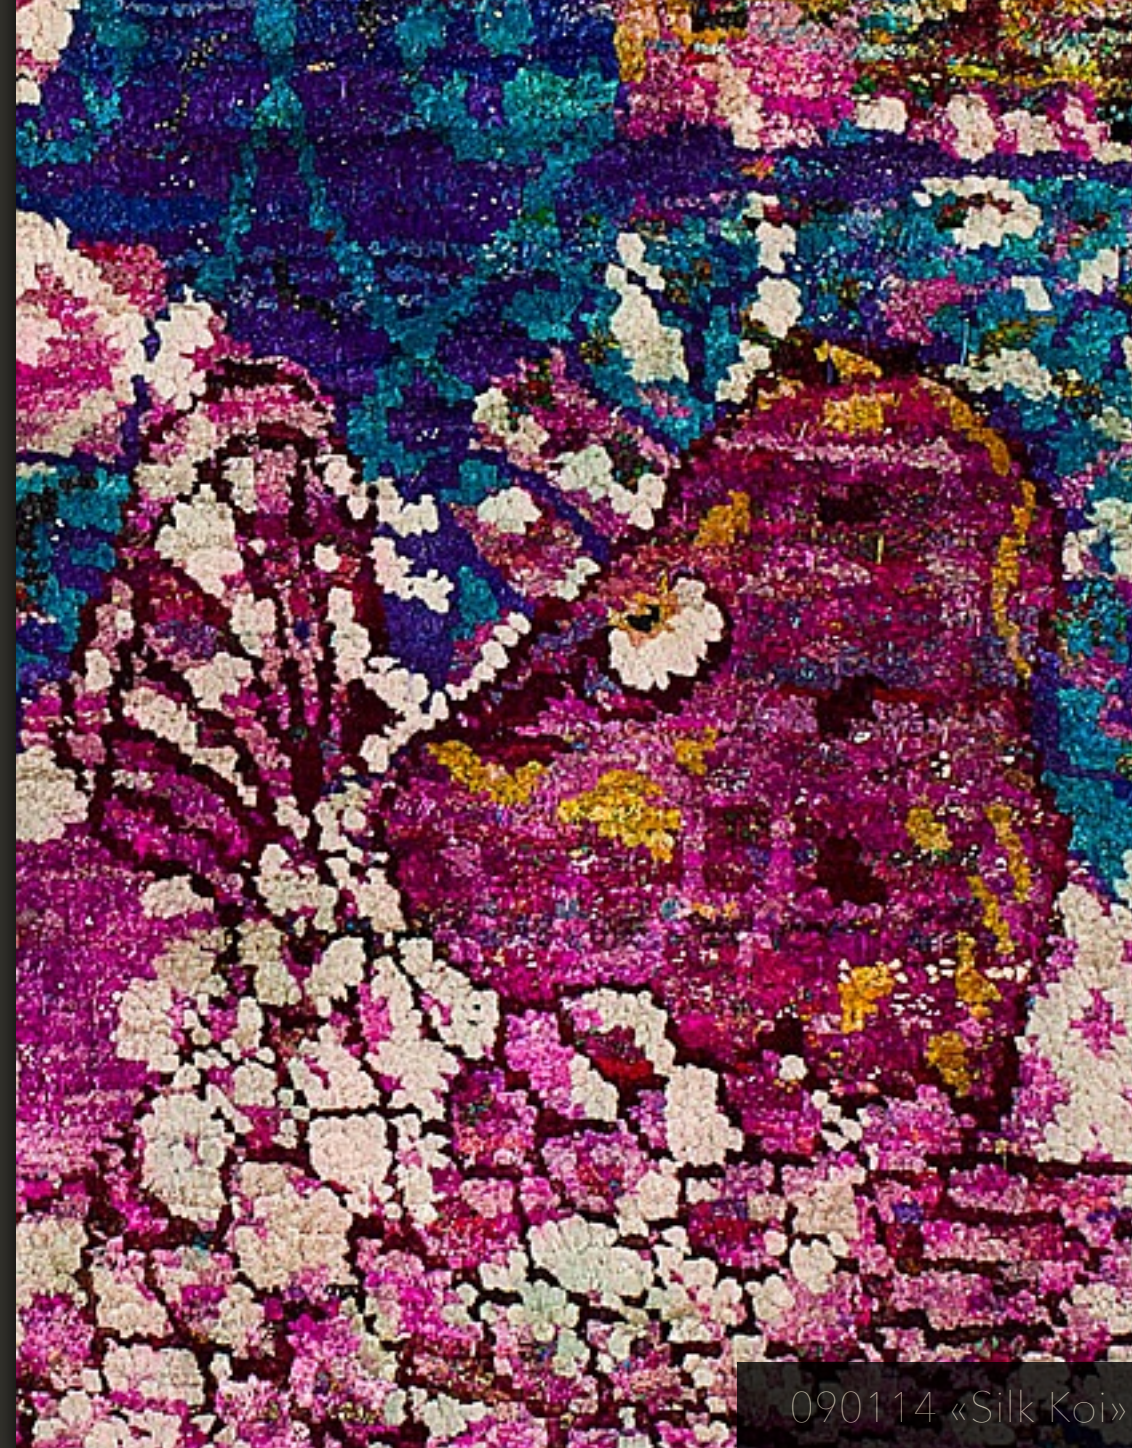

The colors used in carpet paintings play a key role in affecting the viewers' mood.

Depending on the colors you choose, you can make a person feel relaxed or excited or in tune with the harmony of the world.

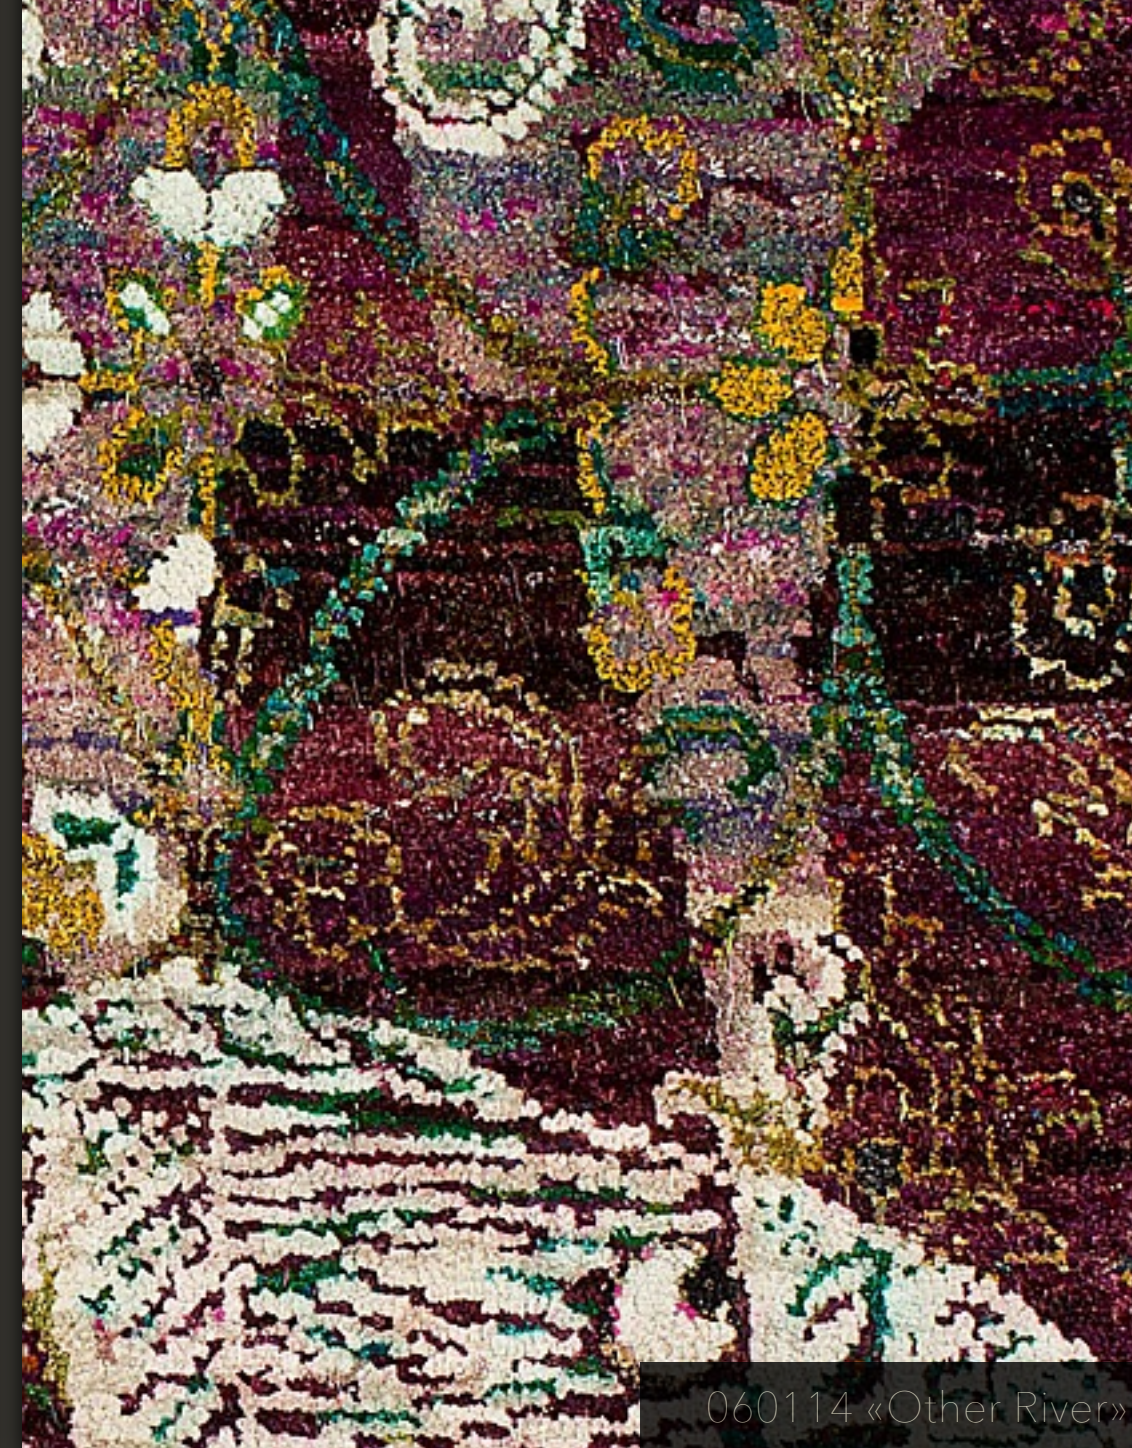

Rajasthan silk is unique in the world of weaving. No other special silk or regular silk, no matter how skillfully it is dyed, can compete with the shimmering multicolor of Rajasthan silk.

Carpet-paintings can reproduce familiar themes from the world of art without copying the originals.

The magical fickleness of Rajasthan silk's color palette, which our designers have mastered, creates a duality of perception that gives familiar images a kiss of life in a different, three-dimensional measurement of color and texture.
